LA FIRST TAX & FINANCIAL SERVICES

9067 Las Tunas Drive, Temple City, CA 91780

Phone: (626) 285 1221

Email: ePublic@LA1sttax.com

Why: Audit...Audit...Audit...

With the federal and state government in deep financial trouble, this is the first and prioritized action taken by the government agencies; partially to alleviate the revenue deficit, and partially to correct the problems that have been long in existence. We now see more and more audits by various state agencies, such as EDD, the State Fund on worker's comp, and the State Dept. of Industrial Relations, in addition to the Franchise Tax Board, Board of Equalization and federal Uncle Sam, the IRS.

The industry has numerous tax issues to be concerned with. The workshop will cover issues such as income tax, self-employment tax and employment tax. Record keeping and internal control will also be elaborated. Last but not the least, focus of audit by the Internal Revenue Service!

As a bonus to the participants, we will also elaborate on strategies in tax-saving plan – some strategies, when implemented, will save the business owners a lot of taxes and trouble in case of an audit.

What: **There's a lot you should never miss**

- Tax issues – income tax, self-employment tax and employment tax
- Accounting issues – record keeping and internal control
- Audit – by IRS, how to prevent and prepare yourself
- Tax saving strategies – what are available and how to implement

RSVP recommended. Email or fax back to (626) 285 4215
